Decision No. 72054

Dear Sir or Maim,

I am sending a water loss report, as you can see in the report that we fix our water loss problem. We had a hard freeze in January and had a pipe broke at the water tank. We were still having a large amount of water loss. As we were reading the water meters at members houses we found out that a member of the water company had been watering there big yard with a pipe hook on to the main water line without our knowledge . We fix the problem and now we are within the limit of water loss.

Eden Water Company
